# STORM IN A TEACUP

"Carefull as you go...these secrets are not shared freely!"

**It's tough** being a Victorian street urchin! No education to speak of, terrible working conditions and the only 'safe' thing to drink is the beer!

However, there is a rumour brewing that the miraculous drink of tea may save the nation from the clutches of booze. The problem is no one knows how tea is made or where it comes from.

Follow legendary botanist Robert Fortune on a perilous adventure to distant and mountainous lands to discover and steal the secrets of tea. Careful as you go though, these secrets are not shared freely and whatever you do watch out for the ruthless East India Trading Company.

After surviving the many dangers lurking in Victorian London it is time to cross the high seas in search of fame, fortune and world-changing botanical knowledge. Sow and smuggle your own Camellia Sinensis seeds before learning how science and ancient philosophy come together to brew the world's favourite beverage!

**PlayGreen** is an exciting hybrid of outdoor theatre and garden exploration that uses plants, animals and the natural world as a means to explore stories old and new. A vibrant mash-up of performance, play and participation!

A typical Play Green event can include botany, history, literature, science, maths, art, physical education and drama. Something for everyone! As well as a day packed full of adventure, each participant will leave with a take-home element as a memento of the day.

## Curricular Level:

Whilst PlayGreen workshops are written and delivered in a fun and inclusive manner, offering learning opportunities to a wide range of ages, this workshop is primarily aimed at Key Stages I+II.

"PlayGreen - The holy grail of cross-curricular education"

Michael Holland - Head of Education, Chelsea Physic Garden
